DETAILED ACTION

Reasons For Allowance

01. Claims 85 – 95 have been considered and deemed allowable. The following is an examiner's statement of reasons for allowance:

It is the examiner's opinion that the art of record considered as a whole, alone or in combination, neither anticipates nor rendered obvious the specific judging use permission of metadata taught by the Applicant. The Examiner finds no single prior art reference teaching of judging user permission information by using content provided by a content provider and metadata provided by a metadata provider, and judging user permission of the metadata based on usage control information, whereby a range of the provider is identified by signer information, and usage control information includes control permission information indicating user permission of user metadata, as recited in independent claims 85, 93, 94, and 95. A thorough search of the prior art reveals the primary references Muntz et al. (US PGPub 2003/0208681) and Doherty et al. (US Patent 6,920,567), which were previously used to reject the claims. Muntz discloses a similar method in that authorization access is determined based on metadata and encrypted authorization information for a user. However, Muntz does not disclose a license management server or specifying a range of providers. Doherty discloses a similar method in that a license server can be used for user access authentication for allowing or disallowing a user access to different software or connections. However, Doherty does not disclose judging at a server whether or not a user has the right to

obtain a license, and having licenses issued based on such permission. Therefore the Examiner believes that the independent claims, as amended, stand in condition for allowance over the cited prior art. Dependent claims 86 – 92 are also believed to be in condition for allowance over the cited prior art for at least the reason listed above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
